

## **ASSISTANT PROFESSOR APPLIED VETERINARY MEDICINE**

The Department of Veterinary Medicine, Faculty of Agriculture, Iwate University seeks a non-tenure-track position at the level of Assistant Professor. The successful candidate must have a good command of English and a nationality other than Japanese.

Our department has three divisions: fundamental (Paramedical Sciences), applied (Disease Control and Environmental Sciences) and clinical (Clinical Veterinary Medicine) veterinary medicines. The Applied Veterinary Medicine includes five laboratories: pathology, public health (toxicological and pharmacological studies), food safety, parasitology and microbiology.

Following is the detail adding to the above:

Title of position: Assistant professor (non-tenure-track)

Period of employment: For three years from the appointment. The contract may be renewed for an additional two-year term depending on the appointee's performance.

Starting date: October 1 or the 1st of month as early as possible in 2006.

Applicant should have D.V.M or Ph.D. The successful applicant should be able to start research and the laboratory course in some educational curriculum.

Salary: Annual salary (approximately 5.3 and 5.9 million yen for one at age 30 and 35, respectively) will be commensurate with individual's experience in accordance with the provisions of Iwate University. Compensation package (health/dental insurance and others) based on the university regulations will be available.

Others: The appointee is expected to teach a veterinary related lecture class in English.

Website of Iwate University: <http://www.iwate-u.ac.jp/english/>

I would ask if you know an appropriate candidate in your university or research institute who can fulfill the position relating to one of the five laboratories of Applied Veterinary Medicine. Applicants should send curriculum vitae, a list of publications, and a concise statement of research interests in pathology, public health, food safety, parasitology or

microbiology to Department Dean and Professor Kunihiro Shinagawa, Department of Veterinary Medicine, Faculty of Agriculture, Iwate University, Morioka 020-8550, Japan.  
E-mail: [shinagaw@iwate-u.ac.jp](mailto:shinagaw@iwate-u.ac.jp). Deadline of application is August 11, 2006.
